How to send users to terminal on Alpeta

1. Go to "Terminal User" menu.

How to send users to terminal on Alpeta

The screenshot shows the Alpeta web interface with the 'Terminal User' management window open. The interface has a dark blue header and a sidebar with icons for User, Group, Terminal, Terminal User, Firmware, Timeline, and Authlog Export. The main content area contains three tables: 'Terminal List', 'Terminal User List', and 'Terminal Saved User List'. The 'Terminal List' table has one row with ID '1' and Name 'test', highlighted with a red box and labeled '1.'. The 'Terminal User List' table is empty, and its 'Add' button is highlighted with a red box and labeled '2.'. The 'Terminal Saved User List' table is also empty. Above the tables are buttons for 'Add', 'Delete', 'Import', and 'Upload'.
